MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Saito' Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 ps.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realising the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

THE Blood telegraphs its condition upon the external flesh, Scrofulous eruptions salt-rheum, ulcers, boils, felons, white swellings, tumors, cancers, &c., are the telegraphed symbols by which the current of life indicates the fact that it is impregnated with corruptioen and pleads for purifioation. Answer the plea with a course of Bristol' Sarsaparilla, the concentrated essence of the best vegetable depurative known to science. Soon the superficial indications will be changed, and sound flesh and a healthy, unblotched skin will supplant suppuration and inflammation. The salutary, chemical revolution produced in empoisoned blood by this harmless detergent is one of the most wonderful phenomena in the operation of medicine. cj—f19

NEW PRESIDENT OF URUGUAY.

His Excellency Don Tomas Gomensoro sent an aide-de camp on Friday evening, 14th inst., to the Legislature of Montevideo to advise the Conscript Fathers that he was waiting at the Fort to hand over the reins of Government to his successor. The messenger found that the Senators had just elected Sor Ellauri for their chief, the voting for him having been even with Sor Pineyro, and lots drawn, in which the prize fell to the former.

Mr. Ellauri and the Senators then formed in procession from the Plaza in front of the Matriz church and proceeded to the Government-house. The meeting between the out-going and incoming magistrates was most friendly, and Mr. Gomensoro addressed his successor in these words—

"My Government may not have been remarkable for enlightenment, but I have done my best to keep order and enforce the laws. I am a plain, unlettered man, whom my fellow citizens raised to this high post. I have no pretensions to genius, but my intentions have been pure, and now, obedient to the Constitution, I hand you over my authority."

Mr. Ellauri congratulated Mr. Gomensoro on the era of peace and order which had marked his brief tenure of office, and for which the country must feel grateful. Mr. Gomensoro replied, that he had every confidence in the destinies of the Republic, confided to such hands as those of the new magistrate.

The old Cabinet Ministers having retired with the extinct administration the new President appointed Mr Pablo V Goyena to sign all decrees, and the head clerks of each department to act as Ministers pro tem. Mr Ellauri's first decrees had reference to the garrison, to ensure the maintenance of order; he confirmed Majors Fonda, Garcia, Gomensoro and Navajas in their commands, and restored Col. Latorre to command the 1st Chasseurs, from which battalion that officer had been removed by the late Government. Col. Echeverry being thus replaced was put on the staff, and Lieutenant Colonel Lalemand, formerly brevet, was promoted to full rank. All these commanders, some of whom had been a time on sick-list, gave in their adhesion to the new administration, which moreover gave general satisfaction among the people. A gentleman named Andrew Rivas went to the Legislature and presented the clerk, Bernuedes, with 50 gold ounces for having read out Mr Ellauri's name in a good, bold voice, and then distributed an equal sum among the short-hand writers and other employees.

Saturday, the day fixed by law for opening the Chambers, Pres Ellauri proceeded to this first public act of his Government. The 3rd chasseurs, under Col Lalemand, formed a guard of honor before the House of Assembly. His Excellency, whose term of office is only to last 12 days, was greeted with as much friendly demonstration as if his power were of a permanent nature.

The new President said:

"Honorable Senators and Representatives!

"It becomes my honorable task to open the session of the 11th Parliament of the Oriental Republic of Uruguay. As I only entered on office yesterday, I can have nothing to report on the administration of the country; but I am happy to assure you that public order is secure, and the guarantees of life and property respected, without which we can have no progress. During the few days (till 1st March) that I shall have to hold power it will be alike my duty and study to see the laws obeyed. Then it will become your task to elect for President of the Republic the best and most experienced citizen. I now declare the 11th Uruguay Congress opened."

Col. Pagola resigned the post of Captain of the port, and Pres. Ellauri at once accepted such resignation; but as a new Government comes into power next week, many people think that it was hardly worth while making any changes in so short an interval. Others assert that the present Provisional ruler will be elected Constitutional President of the Republic, and that his removals or appointments will be for some duration. It seems a meeting was held on Saturday, at Vasquez Sagastume's house, in favor of Dr. Muñoz.

Much uncertainty prevails as to which candidate the Blanco Senators and Deputies will vote for. Some say Muñoz, some Gomensoro. Foreign residents do not take a warm interest in any of the candidates: one will tell you that Muños is the model of civic virtue; another says that no better man could be found than Ellauri; a third thinks old Gomensoro a very worthy gentleman; a fourth says Bustamante would be a most energetic ruler, and so on.

The revolution expected to come off on the 15th February existed only in feverish imaginations, and it may safely be predicted that the Ides of March will pass over just as harmlessly, and Pres. Ellauri will in due form hand over the reins of power to himself or somebody else, with the same good order as he received them from Pres. Gomensoro.

Three rulers in fifteen days, and all this without murder or revolt. Surely it is a sign that things are improving in Montevideo, that the Ark of the Constitution rests on solid ground, and that the waters of revolution have subsided.

LATEST EROM BRAZIL.

Rio Janeyro, Feb. 11th.

The great news of the day is the new cable to be laid down from Para to Chuy, along the Brazilian coast to the limits of Banda Oriental, some 2200 miles long. It is already made, having cost nearly a million sterling, and the Africa will start from England in March to lay it down. It was made for a company formed last year, capital £1,350,000, with the purpose of connecting G. Britain and the West Indies, with a branch from the latter to the U. States, and another to Venezuela. It will meet at San Roque point with Baron Mauá's cable from Lisbon, which is to be fully laid down by the Great Eastern before the end of the year. Thus Lisbon and Banda Oriental will be in immediate relation during the present year, and the River Plate Telegraph Co. will be the connecting link between the ocean cables and the land-system of wires over the Argentine Republic and the Pacific seaboard.

An animated discussion has been carried on in the Chambers with reference to a demand for vouchers concerning a sum of £90,000 which the Brazilian Government confided to Baron Mauá to support the Government defending Montevideo against General Oribe. The Baron quoted the flattering encomium bestowed on him by the Minister of that time, for having honorably fulfilled the trust, without even charging any commission.

The pioneer steamer Vasconia of a new line from Biscay, with 340 emigrants en route for Buenos Ayres, arrived at Bahia short of coal. Yellow fever prevails at Pernambuco, Bahia, and other ports, in a mild form.

The deaths from fever in Rio Janeiro exceed 50 daily, and amongst the latest are those of Miss Anne Kerr and Mr. George Ravenscroft. In Nazareth, near Bahia, cases that are not very bad are cured with castor oil.

Mr. George Garland Starr, American, a wealthy iron-master, died suddenly at Pernambuco, of liver complaint.

The Austrian Corvette Helgoland, carrying 6 guns and 270 men, arrived at Bahia.

The Brazilian Trans-Atlantic Steamship Company had a meeting last week and decided that to wind it up would entail heavy loss on the shareholders, and as the first steamer was daily expected from England a further call of 10 per cent. was necessary.

Mr. George Gunther offers to accommodate gratis 200 newly arrived emigrants, during the present epidemic.

The police arrested two men named Overthrow and Halford at Botafogo, supposed to belong to a gang of 14 English robbers that has caused much trouble: the rest escaped.

Rumors of a slave-rising at Bagé were exaggerated, but it is true that 80 slaves wanted to march to Rio to ask the Emperor for their liberty.

A disturbance occurred last week owing to 400 waggoners and porters resisting a police seizure of 20 sacks of coffee, but the leaders were arrested. There was no bloodshed, although at first the attitude of the mob led people to fear serious results.

Captain Tap, of the Dutch brig Reinel Peter, has sent home to Holland in irons the mate and sailors of his vessel for having mutinied on the high seas, plundered the cargo, and tried to shoot the captain.

Advices from Uruguayana say that heavy rains along the Brazilian and Oriental frontier have lasted for more than a week.

The only important news from Rio Grande is that Mr. Albert Smith is working away clearing the bar of the San Gonzalo River, near Pelotas. The total length to be dredged is two miles, of which 550 yards already show a depth of 12 feet, and 700 yards about a foot less.

There are rumors that Viscount Rio Branco will before long resign power, and be succeeded by Baron Cotegipe.

Amongst the latest news from Europe in the English papers is a New York telegram of Jan. 14th, that Mr. Pinchbeck, a negro, has been chosen a senator for Louisiana.

The thermometer ranges from 80 to 90.

MONTEVIDEO.

Monday, Feb. 17th.

Messrs. Robinson and Dos Reis have arrived from Flores Island after ten days' quarantine, and say that it is not quite so comfortable for passengers as is represented. They had been told that under the new system every luxury could be had, just the same as in the Hotel Oriental; indeed it was even stated that you could get as good a dinner as with the Trois Fréres Provencaux of the Palais Royal. Mr. Dos Reis assures me that it is preferable to make a voyage to Chile and back, sooner than go to Flores Island, and I have just met a second Mr. Robinson who tells me that when he was in quarantine last March the passengers were left 24 hours without food.

Eight steamers arrived on Saturday from Chile, England, France, Spain, &c. This shews how the steam traffic of the river Plate is increasing. Put them down at an average of 2,000 tons, it gives 16,000 tons for arrivals in one day. The aggregate arrivals and sailings last year for this port was 1½ million tons, and this year will probably exceed 2 million tons, coming close up to the tonnage of Glasgow.

A large invoice of Mauá's preserved beef from the Román factory on the Uruguay was sent home by the Douro in cases containing 48 tins of 2 lb each, marked "corned beef of Mauá & Co." It is stated that at four pence per lb, say eight cents, this beef will leave a fair profit. The consumption of Australian beef last year in England was about £1,900 stg., (or 100 tons) daily.

To-day takes place the auction of the English barque Quinteros wrecked on the 4th, at Maldonado, with 500 tons of coal from Newport, consigned to Don Ricardo Wilson: register 384 tons. The crew were saved, but the ship and cargo will hardly fetch a hundred dollars.

Many enquiries are made as to the parties connected with the project for sending out 40,000 English families to this country in 10 years, as reported by the *Telegrafo*, with a capital of £400,000. The realization of such a project simply depends on the maintenance of peace.

A government decree is published admitting an Italian named Casiani, and a Spaniard named Gonsalez, to the rights of Oriental citizenship. It is said that the first is an experienced fencing master for some time resident in B. Ayres.

The attendance at the Bull-fight yesterday seems to have been even above the average, and with pain be it confessed there were some English faces among the savage spectators of so barbarous a diversion. One bull killed three or four horses impromptu, and another leaped the barrier, clearing out the occupants very quickly. As an extra attraction one of the "matadores" carried a youth on his shoulders, and both narrowly escaped being killed, the former having his hip grazed by the bull's horn. There is no chance of the Government abolishing these sanguinary sports, as it would reduce the dividend on the Union Tramway, in which so many virtuous citizens hold shares.

Doctor Fleury is making great improvements in the Caridad Hospital. A marble fountain has been put up in the courtyard, and baths for the convalescent are served by the water supply. A museum is also being arranged. This hospital, according to Dr. Leeson, may compare with the finest in Europe.

The *Tribuna* has an article to-day with reference to the new loans, railways &c. of the River Plate negotiated in London, and says—"if the truth be "told one half of these loans and rail-"ways are due to the flattering articles "published by the STANDARD."

BELGRANO TRAMWAY.

LAYING THE FOUNDATION STONE.

"There's a chiel among ye takin' notes, an' faith he'll print them."

Yes, and there's another chiel among us doing work, and faith he don't print them. But we caught you this morning, Don Mariano; for we took our morning stroll towards Belgrano, and there we happened to be just in time to witness the ceremony of laying the foundation-stone for the new Belgrano station, and a noble stone it was, too, being about 3 feet square. This was very ably laid by Sr. Don M. Agrelo, one of the Directors of the works, in company with the engineer and the contractor for the building, Mr. Wilkinson, Mr. Agrelo making a very neat and appropriate speech, which unfortunately we were not near enough to be able to report in full.

The workmen were afterwards regaled very liberally with all necessaries &c., without which no ceremony of this sort can be considered complete. We found that the foundations were all excavated and the ground covered with building materials, and seeing so much activity prevailing about this work, we strolled in and found the work of macademizing the Santa Fe road proceeding apace. There are two steam Road Rollers there and a street breaker to keep the work well supplied: and still strolling in we at length reached what used to be the old Pons Asinorum of schoolboy days, namely, the old Maldonado bridge. But, alas! what a change! The old bridge had disappeared, and a new one had taken its place. But such a bridge! We doubt if South America can boast of such another.

Here we saw a real good bit of English brickwork, such as it would be well for our bricklayers to try and copy; and we would recommend them to visit this work for that purpose, if nothing more.

Really, Don Mariano, we must congratulate you. But you work so silently that we must look you up from time to time, and this, you may depend, we shall do.

LATEST FROM U. STATES.

In New York, General John A. Dix was inaugurated Governor to-day, and in New York City Willan F. Havemeyer assumed the duties of Mayor, the last vestige of Tammany passing away. These assumptions of office place the Reformers in full authority in New York, and from the changes they propose beneficial results are expected to ensue.

The trade of Cincinnati has suffered a disaster from the ice somewhat similar to that which has occurred at Memphis, although the damage done is not so great. Ice has for some days formed in the Ohio, but yesterday, morning before daylight it broke, a thaw having set in. The ice came in enormous masses down the river, borne by the freshet, and washed away or partly wrecked several boats at Cincinnati. The amount of damage done is estimated at $200,000, five fine steamboats, besides smaller vessels, being greatly damaged. To-day the ice is still running, but no further damage is apprehended.

The Bremen bark Columbine arrived at New York on the 31st of December after a most tempestuous and protracted voyage, having sailed from Bremen on the 18th of October. She brought 330 passengers, 150 being children, and so stormy was the voyage and so great the privations the passengers had to endure that no less than 22 of the little ones died during the passage.

I have already referred to the probabilities of the annexation of the Sandwich Islands to the United States, and the departure of an American man-of-war, the California, from San Francisco Honolulu, General Schofield being a passenger. The English authorities, it seems, are alive to the emergency, for a telegram from San Francisco announces that the British steamer Sparrowhawk has been ordered to Honolulu, and will arrive there about the same time as the California.

On Saturday week, when the Hamburg-American steamer left New York, the city was suffering intensely from the effects of a sudden thaw, business throughout the day being almost suspended and locomotion impracticable owing to dense fogs and heaps of melting snow. Several accidents occurred to shipping and ferries.

Accounts of the total destruction by fire of the Fifth Avenue Theatre—one of the finest in New York, and adjoining the hotel which was burned, with a terrible sacrifice of life, a few weeks ago—are contained in the latest New York papers received. The fire was caused, it appears, by sparks from a defective flue. So quickly did the flames spread that gentlemen who ran out of the theatre to give the alarm, on returning found the entire stage a mass of fire. Within half an hour the rear wall cracked and fell inwards, and presently another wall came down, burying the kitchen of the Fifth Avenue Hotel, where, owing to the recollection of the recent tragedy, the wildest alarm prevailed. The stage of the theatre melted away like wax, the galleries in succession dropped from their places into a seething mass of flame below, and within one hour the building where, at the moment the fire originated, delighted thousands had been witnessing a comedy, was transformed into a shapeless heap of smoking, crumbling ruins.

A despatch from Louisville, Kentucky, dated the 3rd inst., says:—The gorge at Madison, Indiana, broke at four o'clock this morning, taking the steamer General Buell down a mile, and sinking her. The vessel is a total loss. It also broke to pieces and sunk the steamer Nat Williams, together with a ferryboat. The gorge also pushed a large number of empty coal barges and some loaded ones on the bank, and completely wrecked them. From 8 p. m. yesterday to 6 a. m. this morning the river at Madison rose eight feet. The following are the losses:—The General Brell, $40,000; the Nat Williams, $2,000; the ferryboat, $2,000; coal and empty barges, $30,000—total loss, $74,000. The gorge is looked for at Louisville with considerable anxiety. It is expected about 9 p. m.

From Cincinnati on the same day it is reported:—The ice gorge at Wheeling, W. Va., gave way this morning, carrying down the steamer Carrie Brooks. News from above here indicates a very high river coming down. The Licking River was running out with heavy ice and a large number of loose sawlogs this afternoon, but the ice is soft and well broken up. No additional damage has been done. Two or three small steamers were thrown aground with little injury. The rumour current last night that the Leonora went down with the ice is false. She is safe at the lower part of the city. The Kanawha River has risen 16 feet at Charleston. The Ohio rose seven feet in 24 hours at Ironton. In anticipation of a flood here the people in the lower part of the city are removing their merchandise from cellars and placing it high and dry. The ice in the Muskingum at Sanesville this morning threw Granger's mill off its foundations, and sunk the steamer William Fox. The steamer Emma Graham sunk near Middleport to-day, loss, $6,000, together with $6,000 worth of flour. No insurance.

A St. Louis despatch, also of the 3rd instant, says:—A large cake of ice got detached from the gorge at Arsenal Island, and anchored yesterday afternoon below this city. During its passage down the river it carried with it two transfer boats and a barge and sunk a barge loaded with iron which was lying alongside the towboat Wild Duck, at Carondelet.

The following, bearing the same date, comes from Pittsburg, Pennsylania:—A large amount of ice has been running in the Monongahela river, but has caused little damage. The large number of canal barges at different points above here are now out of danger. The Petrolia, an old towboat, was struck by ice at the wharf this afternoon and sunk below Smithfield-street bridge. The loss has not been ascertained. It is reported that there is twelve feet of water at Rochester. Two steamboats were sunk there to day by the ice.

EDITOR'S TABLE.

The Pacific steamer Magellan entered Montevideo yesterday morning from Lisbon on the 29th. Her news is of the most lively description. Would our readers be surprised to hear that the Russian Bear has had the effrontery to propose to lie down with a British lamb, i.e., a matrimonial alliance between the two countries. We don't know as yet which of our Royal Family is aimed at the Princess Beatrice, or Duke of Edinburgh probably. One of the brightest lights of contemporary English literature has gone out—Bulwer Lytton is dead. Johnny Russ is likely to have a toughish bit of work with his Khiva campaign; this ought to be some satisfaction to British Christians. The name of Napoleon appears to be still a source of terror to the Red ruffians of Europe, and the International has absolutely proposed to assassinate the young Prince Imperial before his father's grave is well closed. The head of the society, Carl Marx, opposes the fiendish project. The news from the States is brisk. Our Uncle Sam has fobbed ten millions clear profit on the Alabama money, he is going to build ten slashing frigates with it, and from all appearances, "go into" the Dons about Cuba. That old cock Livingstone is as lively as a hen on a hot griddle and was going up the country when last heard of. King Amadeo has offered his Kingdom for a horse and taken the field against the Carlist Richmond. Mount Vesuvius is going to blazes again, to the terror of the Neapolitans; and last not least the unheard of proceeding of preparing Buckingham Palace for the reception of a royal visitor is rumoured; the fortunate fellow is a Shah of some unpronounceable place in India, whom we have probably rifled of every mortal thing but his title, and wish to soap down with cheap civility. The produce news is about the same, and money expected to be cheaper in London in consequence of large specie arrivals from Australia. The Germans will probably relieve Threadneedle Street of a good deal of it.

Mr. Crabtree, manager of the Northern Railway, made the wittiest hit of the day yesterday. Our tremendous colleague the *Pampa* has been rather severe on the well and unfavorably known locomotive the "25 de Mayo," for killing washerwomen and other little peccadilloes that even the best regulated engines will commit in their youth (this engine is a new one) Give a bad name to a dog, an engine, a lady or a newspaper, and it is better hang one or all of them at once; and Mr. Crabtree, being of opinion that the '25 de Mayo' will smell much sweeter by another name, has paid a most graceful compliment to the editorial lion of the day and christened the engine 'The Pampa.' The public may rest assured that under its new appellation this famous engine will give over smashing such small fry as Italian washerwomen, but will display its wonted energy in running over and making eternal hash of corrupt judges, escribanos, lawyers, and rogues of all descriptions. With a little vigor in this way on the part of the newly baptized engine, we shall soon see it as popular as its literary namesake. The sooner it begins the better. Marker, score a few for Mr. Crabtree!

The *Siglo* of Montevideo publishes some very complimentary remarks on the influence of the STANDARD and *Courrier de la Plata* on the material progress of the Plate, and the services both papers have done the country abroad. For twelve years we have worked with this main object; and so long as there is pen, ink and paper in the country we'll stick to it; for much remains yet to be done both here and in Europe, However the R P is rattling along the road of Progress at a very remarkable pace just now.

Captain By-the-Sea lately took an action for Divorce in England against Mrs. B. the S. It was the old story. The Captain went to sea abroad, and his wife got morally at sea at home before he came back, was caught, and is divorced, having made no defence. By the by we, have not heard the co-respondent's name but it does not matter. He has a cottage by the sea some place in Wales at present.

The last number of the *Illustrated London News* has grand pictures of the Emperor of China's Wedding. The Imperial Guard look very like our own Queen's Beef eaters, and they all carry what are known in Pekin as Lomas de Zamora lamps. Daws has the paper.

We understand that Mr. Bateman will arrive in this country in June next, to give final directions as to the commencement of the Drainage and Sewerage Works.

There is mighty queer news from Australia and thereabouts. Meat is going up in price like fun and fury. Worse still, "gold medalling" has become a custom of the country. A pretty face, good figure, "tights" and the trapeze completely floored the Victoria Attorney General lately, and the Q.C. had the 'cheek' to go on the stage and 'gold medal' the possessor of these manifold sources of amusement and attention to an enlightened public. The *Times* correspondent says:—"Odd things are done in Victoria occasionally, but we are not always unconscious of their oddity. We have lately been entertained by an exhibition in which a female gymnast and an ex-Attorney-General, State pensioner and Q.C., were the principal performers on the stage of a city music-hall. The learned gentleman publicly presented the agile lady with a testimonial to her merits on the flying trapeze in the shape of a gold medal, which was an appreciable addition to the light costume in which she stood to be decorated. The Press has expressed more astonishment at his share in the performance than at her most daring efforts."

The ball given by Mr. and Mrs. Bate at their residence at Quilmes on Monday night last was a most recherché affair. A special train of two first class cars left the Central Station about 10 p.m. with the numerous guests from town. In about half an hour it stopped on the line, at the rear of Violet Lodge. Two brilliant pyrotechnic white lights lit up the scene "a

giorno" as the passengers walked towards the house on a path of straw and sweet rushes laid down across the fields, while hundreds of variegated Chinese lanterns hung from the trees and shrubs in every direction, giving the grounds and gardens the appearance of fairly land. The decorations of the house showed the most refined taste, the profusion of flowers, flags of many nations, correct adjustment of the lights and perfect ventilation, combining to make the "beau ideal" of a pleasant ball room. Two hundred guests commenced to woo Terpsychore about half past 11 o'clock, and chased the glowing hours with flying feet till 2½ a m. when a supper was served that Gunter would have looked on with envy. Afterwards dancing was resumed with great spirit till 5 o'clock when the return special train drew up, and all took leave of their hospitable and courteous entertainers charmed with the delightful evening they had passed. The Central was reached at a quarter to 6 a. m.

The Tycho Brahe's mails to the 20th ult did not come up yesterday morning, why nobody knows, hough a great many were anxious for information on the point.

There was quite a sqhirt in polite circles yesterday, and nothing was talked of but the prodigious mess Mr Nick Calvo has got himself into. We are authorized to contradict the report that he was ever President of the Argentine Republic. Mr Charles Waring seems to have his wits about him, and makes a capital Tartar for anyone to catch.

It is just as well that our sheep and cattle farmers should know that they are selling their stock for market at absurdly low prices. Meat in Australia has lately risen to 5d. and 6d. per lb. in consequence of the immense preserved beef trade now developing there. Here the same advance is certain to take place, and that soon, as the half-dozen new preserving schemes lately started will soon be in full work, and Mr. Fulton Mendez's 5000 ton live cattle-export steamers will begin running between this port and England in August next.

The Lions are going. This is the last week of the Menagerie. Let no one forget the benefit night of the agile and graceful Lottie Aymar.

The principal news from Central America is that alligators now run races with the trains on the Panama Railway. If any of the animals come this way, we'll make a race for them; any train in this country can take a ton from an alligator, and a hollow licking to boot. Except in Cauca there is no particular row going on now in Central America.

Ship's bread—Rolls, and plenty of them.

A light enjoyment—Cleaning windows.

Chopfallen people—Bankrupt butchers.

The Lacrosse tramway extension to Almagro is to go on again. Look out for the 40 miles an hour Union Jack express. Those Flores people who daily come to town will save a dollar a day each by this new branch.

A colleague announces that Mr. and Mrs. Possoni have been engaged for the next opera season at the Colon Theatre. Mrs. P. sang in Verdi's Aida at Cairo; this is the only feather in her cap we know of yet, but she may have a whole peacock's tail in it.

The Carnival Committee met on Saturday evening in the Policia to arrange with the authorities the order of the three days sports, the march of the comparsas, and return route of the corso. Mr. O'Gorman expressed himself pleased with the arrangements of the Committee and promised his most strenuous aid in the suppression of water throwing and maintenance of order. Tickets are to be supplied to all citizens desirous of enrolling themselves as special constables. The man thus "dressed in a little brief authority" can play such fantastic tricks before young ladies as would make the darlings weep should he find even a 'novio' misbehaving himself. In the way of adornments the Committee have achieved great things considering that the public have not responded as they could or ought. We leave it to our more disinterested colleagues to suggest some mark of popular gratitude, say gold medalling, to the gentle men who have managed to make a sumptuous feast from a scanty larder.

Fifteen hundred immigrants have arrived in the Plate since Sunday last. That's it: keep up the steam!

Our "fat friend" from Wapping is again on the tapis in England. His trial for perjury and half a dozen other gentlemanly offences will commence "pos" on the 23rd of April. Those "great and good" men Messrs. Onslow and Whalley M.P. who think it entails no reflection to be bottle holders for the butcher, have been summoned to appear before the Queen's Bench for contempt of Court in their various stump speeches through the country on behalf of the impostor. Both those lights of the British House of Commons have gone the length of accusing the Attorney General of having put forged letters into the Claimant's hand for the purpose of entrapping him. It is not at all unlikely that the Court will make a signal example of Messrs. O. and W.

The Provincial Government is determined to cure all the accidental ills our railways are heir to in the way of murdering bullocks, boys and 'blanchisseuses,' and has actually named an Inspector, Mr. Stegman, C.E., at 8000 paper dollars a month, to set things right. The duties of this new official, as detailed in the decree, are so multifarious that he will barely have time to say his prayers (that is, if he ever says any). He is to go up and down every line in the province once a week; draw up, once a month, as prolix and windy a report as he can on everything done on every line, even to putting a new button on a porters' coat; answer every question the Government puts to him on any possible topic; keep the way, time and traffic tables of all the lines in his head: and then, if he survive, receive his salary and begin again. We would sooner have sheep, or even the STANDARD, on halves than such a post.

Commodore Marr is well and favourably known by commercial men, travelling ladies and sea-sick children has been promoted from the steamer Astarte, of the Glasgow line, to the new and powerful screw ship Colina, 2,300 tons, built by same company, on the Clyde. The first Bonaparte's great principle (to which more even, perhaps, than his rare individual talents may be ascribed his wonderful career) always to reward merit, is evidently well known to the directors of the Scotch line. Never at any period were good men scarcer in every walk of life, and the conduct of the company in thus securing the services of a faithful, painstaking, and most popular servant, is certain to bring its own reward. We prophesy, without having seen a plank of the Colina, that whilst commanded by the gallant Marr she will never want for public favour.

The old gentlemen of the Municipality have at length awoke, and with a start that might lead us to suppose they had been suffering from a night mare. Yesterday this illustrious old body sent the city of B. Ayres Tramway Co. notice that if they don't immediately mend the Barracas hill the line will be cut and all traffic consequently interrupted. Most wise 'old patres,' had you but read the STANDARD three weeks ago you would have learned of this great danger; more still, that it is not the fault of the Tramway Co., but only the work of the Barracas disimprovement association who should necessarily be held responsible. What matter, the tramways are rich and can pay everything.

The telegraph to Concordia is now open to the public. On Saturday Mr. Sarmiento had to go through the usual inauguration infliction. Why cannot a telegraph line be opened at any one horse provincial town without inflicting a lot of boshy messages on the President of the Republic.

That popular commander Captain Williams, late of the steamer Lusitania, has given up the command of that splendid ship and been promoted as the general agent at Callao of the Pacific line.

The sad accident Governor Castro met with on Sunday last is much regretted in all circles. Mr Castro was driving to the train in a trap with three of his children and a groom when it turned over in a pantano. The little ones were not hurt, but the President of the National Bank dislocated his arm, and the doctors are afraid that permanent consequences may ensue. In common with Mr Castro's wide circle of friends we hope not, and for his speedy recovery.

Young ladies ought to be cautious when practising the piano. A very pretty girl in Calle Bolivar was knocked off her piano stool on Monday by some person throwing the shin bone of a bullock at her from outside. A shin of beef is not a bad thing, but taken in this fashion it is not very strengthening food.

Look out ladies, indeed, we may add gentlemen also. A French chemist has discovered that there are certain kinds of silk dresses which are liable to explode with appalling effect at any moment, some terrible picrate of something or other being used in their manufacture. If this be not a heartless invention of some skinflint husband to frighten the whole fair sex from buying silk dresses it is a serious thing. Ladies must be cautious how they accept presents of silk dresses from even the best of husbands, worst of uncles, guardians or any one else. We hear that the dearer the dress is the more of the terrible picrate is in it. Cheap things are the safest.

COLONIA LIGHT.

Colonia, Feb. 17th 1873.

To the Editors of the STANDARD.

When you print that the captain of the barque I. W. mistook the Colonia Light for Chico Light and ran his vessel on shore, you do him an injustice; it was the fault of a worthless pilot named Luciano Rey; who was, strange as it may seem, fully papered from the Captain of the Port's Office in Montevideo.

ON 'CHANGE.

Feb. 18th 1873

Ounces	400
Sovs	122½
Pats	25
National Bonds	81½

There was a marked tone in bonds to-day and it is pretty evident that some new hands are at the market: the speculation for the end of the Quarter has set in and it looks as if there will be large vencimientos for the end of March. Strange to say the Bond marked ruled upward to-day whilst Cedulas ruled very flat and even fell off ½, but this drop is merely the momentary effect of speculation, the business in bonds was—

For cash 8000 at 81½.
Do do 2700 at 81¼.
Do do 2000 at 81½.
For Feb 28th 20,000 at 82.
Do do 50,000 at 82.
March 31, 10,000 at 82¾

April 10	45,000	81½
do	55,000	81¾
do 5	5,000	81¾
do 10	10,000	81¾
March 31	10,000	82¾
do	5,000	82¾
do	5,000	82¾

In the liquidation there was a heavy business done—

40,000 for end of March		82¾
45,000	do	82½
50,000	do	82¾
10,000	Saturday	81½

The bond market closed hard, and one banker was paying 500 m/c. for right to deliver bonds before 3 st March at 82¼. Some large 'multas' were taken up.

In Cedulas there was an unlooked-for weakness in the market.

The sales were—

Series A, cash,	2,000	at 98¼
" Feb. 28,	10,000	98½
" " 19,	2,800	98¾

In the Liquidation but one sale—
Series A, 12,000 cash, 98¼

The amortisation of the Provincial Bonds created in 1868 takes place on the 20th inst., and by bid.

The retirement of Mr. F. Plowes from the well known firm of Babin & Plowes was announced to-day. Mr. Plowes will be succeeded in the business by his son.

The Provincial Government has named Mr. Charles Stegman as Inspector of Railways, with a salary of $8 000 m/c per month. Merchants complain bitterly of the continued irregularity of the 6 p.m. train to Belgrano. It never leaves the station before 6.30, and sometimes at 6.45. Mr. Crabtree's attention is called to this matter. Such are the inconveniences about Belgrano life that many have left and many more are leaving that delightful suburb, and are settling in Quilmes, the Lomas, or Flores.

The most important local item to-day was the news about the Barracas. It seems that that whole district is now to be opened up and new streets cut through the 'potreros,' thus to mark out what may be considered a new town. The Government and Topographical Department are now moving in the matter, due to the petition of Dr. Avellaneda, Sres. Llavallol, Lezama, Huergo Migueus and others.

Don Emilio Castro was pronounced out of danger to-day: he is out at San Fernando, and the contusions he received by the accident are slight.

The new tramway right through Calle Defensa and straight to the Riachuelo, through the Boca Potreros will be opened to the public on on Monday. Another good move.

There was some exchange passed to-day at 49¾ on England, and 5:28 on Antwerp. Commercial Bank drawing at 49¼. It is rumoured in the exchange market that the National Government has just taken exchange from 3 parties: the amount is not stated, but believed to be over £50,000 stg.: the bills, we suppose, go forward to-morrow per Poitou.

The Montevidean telegram gave:
Hom., 70½ cash.
D., 71, March.
D., 72½ June.
Consols, 87.
Plata, 60 prem.
Territorial, 69¾.
Montevideano, 23¼.
Fortuna, 17.

The latest advices from Antwerp are to the 27th, and are most favourable.

Good wools firm. Inferior wools down 10 centimes.

Hides firm.

There was something said about the Uruguay fish trade; it appears that the business at Fray Bentos is merely carried on for the purpose of lighting up the fabric. A German broker of high standing stated on 'Change to-day that so far back as 1857, Cuyaba the capital of Matto Grosso was lighted up with fish gas, and the streets were up there much better paved than those of B. A., this doesn't say much.

The mail from Asuncion has brought down some fine photographic views of Woodgate's tramway station. A most creditable edifice and much on the style of the Lacrosse station. That Asuncion tram was a great hit.

Money rules so easy again that discount brokers complain of scarcity of first class bills, and this with the Provincial Bank drawing in gently and letting go slowly, the reserve the bank holds to meet the Treasury deposits is over 6½ millions paper currency as some paper the other day erroneously stated: 6½ millions currency is but ½ an hours business at the bank, we could almost manage such a reserve at the courts.

The Magellan's news was known early, and gave a good feeling to everything; the probability of a still lower bank rate and exchange in Rio, at last, at par, are both calculated to effect our exchange market here, as it is possible that bills from Rio may come down by this mail. The produce news is considered firmer and better than by Chimborazo, and upon the whole the news from Europe to-day had a good effect on this market. The Liffey had arrived at Rio, and may be expected in the Mount at any moment.

The weekly Pacific mail service was the topic on 'Change. Such constant arrivals of mail steamers changes the very aspect of things in Buenos Ayres. The Magellan, true to her fame, and spite of the very severe weather, has made a capital run out.

It was rumoured to-day that the new cable now on the way out to Pernambuco belongs to the Platino-Brazileiro Company owing to some special arrangements, having been entered into between the two rival companies. Possibly the letters per Magellan will explain this matter.

To-day Calle Rivadavia was blocked up with huge waggons from the Custom House laden with boxed up tram and railway cars for Don Mariano Billinghurst. The sight was refreshing: the teams held the whole street. Householders and shopkeepers were congregated at the corners watching the procession. The sight in an industrial point was a splendid one.

The sole topic on the Bolsa was the trial of Calvo; never before have we seen news cause such notice; the whole proceedings were read and re-read and translated by the brokers. As a rule the excellence of the English law in the premises is but poorly understood here. Some however admit that the English law is a grand protection against sharpers, and it would be a move in the right direction to have the same law here.

The mails from Montevideo this morning were not detained, owing to some hitch the Rosario and up country mails were behind hand. The news from the Mount is very important; everything keeps rising down there, and the prospects of the Oriental Republic never looked brighter. The bay is crowded with foreign steamers of the largest tonnage, and each has its full quota of emigrants. If things go on throughout the year as bright as they have for the first two months of 1873, we shall indeed make giant strides in the Plate. Capital and labour, the two grand elements of national progress, keep flowing in so fast that everything in the Plate is undergoing change. We now want the scheme for 40,000 emigrant families from the British Isles carried out; every English house of business in Buenos Ayres should subscribe munificently to this enterprise. They will be the chief gainers by bringing into our midst 40,000 British consumers. Since with such slight aid an English house can ship out to Paraguay steamer after steamer full of British emigrants, what cannot a well-organized Liverpool and Montevidean Company do, backed up by Buenos Ayres, and with all the natural inducements which the country and climate offer. There is no limit to the good this measure will work for the whole River Plate in general, if properly carried out; and so strong is the feeling in favor of the measure that, if the Montevidean Government only thought proper to launch a loan for the express purpose of British and German emigration, it would be launched immediately, The Montevidean papers all speak most favorably of the scheme.

The arrival of immigrants at Montevideo is important—

Chimborazo	170
Ville de Bahia	410
Vasconia	311
Bianca Portica	472
Bahia	23
	1386 emgts.

Besides the foregoing, the Graphic, Tycho Brahe and three or four sailing vessels have entered with 150 more, making up in all 1500 emigrant arrivals. This looks sunshine.

The news to-day on 'Change about some Paraguayan drafts being presented to a house in this market and refused acceptance has given rise to much comment; the bills are now protested, and the whole business will probably come before the public in a few days.

The quarantine business in Montevideo has given rise to some questions between the consignees of goods and the steamers' agents. The following notice has been published:—

"The undersigned agents having seen that some of the consignees of goods have refused to pay the expenses incurred by quarantine and fumigation, notify said consignees that, according to the terms of their bills of lading and Art. 97 of the Sanitary Regulations, they are responsible for the expenses of quarantine, fumigation, &c., to be collected by the lightermen.

A leading English merchant has favoured us with the following important advicess about the iron and coal trade received per Chimborozo:—

"The principal quarterly meeting of the South Staffordshire Iron Trade was held yesterday, in the Birmingham Town Hall: There was a very large attendance of the trade, including representatives of nearly all the leading firms in this and neighboring districts, and manufacturers, merchants, brokers and shippers in all parts of the country were numerously represented. A strong disposition for business was manifested, and important contracts, both for pig and finished iron, were entered into: but transactions were restricted by the unwillingness of makers to quote at present, owing to uncertainty as to the course of prices or the fulness of order books. The great irregularity of prices also contributed to the unsettlement of the market. It had been generally anticipated that the leading houses would advance iron £2 per ton, making the price for common marked bars £14 per ton; but a number of the principal ironmasters, with Mr. Barker, the chairman of the iron trade, at their head, foreseeing the injurious effect of such a rise upon the trade, both in limiting orders and exciting renewed discontent and agitation among the workpeople, decided early in the day that they would keep the price of bars unchanged at £12; and contracts with the London market, we are informed, were entered into upon this basis by the British Iron Company and other first class houses.

"At the same time it is admitted this resolution cannot bind any individual members of the trade who were not directly parties to it; and such firms as Barrows and Hall, Lord Dudley, Fosters, and others who have notified their intention not to adhere to the old standard, but to let quotations be governed by circumstances as they arise, must be left to pursue their own course and make their own private arrangement, with customers. It is admitted, also, that the adoption of the £12 standard for bars does not imply the usual proportionate limit for sheets, which are in great request just now, at prices ranging from 15/. to 17/. and some 18/. according to quality of iron or the reputation and circumstances of different firms. There is, in fact, no uniformity of prices at present, outside the compact relating to bars, and even that rule only holds good with the firms concerned for the moment, and may be upset from day to day by any fresh movement in coal or pig-iron. In the actual state of the trade, it is very difficult to obtain trustworthy data of the prices realized yesterday, either by first or second class firms, no circulars being issued, and many of the quotations being confidential; but there can be no question that the 12/. standard has been exceeded in some cases, and that in second class iron an advance has been established of from 10s. to 20. per ton, making bars 11/. 10s. to 12/.."

"In a day or two the facts must transpire, as brokers and merchants who have placed specifications at higher prices will naturally object to see first class bars quoted at £12. Pig iron of native ore has advanced to £7 for the Earl of Dudley's make in anticipation of a fresh rise of 2s per ton in coal, which will probably be notified on Monday, and Messrs. Barrow, of Bloomfield, are quoting for gray forge £7 10s, short weight, which represents, we believe, nearly £8. at the old reckoning.

"The Cannock Chase coalmasters yesterday advanced the price of house coal from 1s 6d to 3s per ton, according to quality. Though this advance will not directly affect the iron trade, which is not dependent on the Cannock district, it may be taken to foreshadow an early corresponding movement in the other coal fields of South Staffordshire and East Worcestershire. The causes alleged for the advance are the increased demand for coal, consequent on the closing of the South Wales collieries, and the diminished output consequent upon the inundations. To these local causes may be added the general one that additional charges are imposed upon coal owners by the Mines Regulation Act which has just come into operation."

The English papers received per Chimborazo speak of heavy claims of the Maua Bank against the Oriental Republic. We extract the following:—

"The heavy reclamation of the Maua Bank of Montevideo against the Uruguayan Government for its arbitrary and abusive acts in 1869 has been warmly supported by the Imperial Government, and the Minister for Foreign Affairs of the Oriental Republic of Uruguay has reported to the President that the reclamation was entirely legal and equitable, and that the bank had at no time condoned the acts, and is entitled to the full amount claimed. A decree recognizing the claim and providing for its satisfaction is expected to appear in a few days."

The following is the very latest statement of how the war debt between Franco and Germany stands—

"In Parliamentary circles a full understanding between M. Thiers and the Commission of Tgirty is believed to be probable. 2,200 millions have, up to the present, been paid in of the loan of three milliards."

The West Coast mails have brought the following—

"The steamer of the French Atlantic Line, the Ville de Brest, came into collision with the British baque Lady Catier, and sunk her, on the night of the 7th, when on the voyage from Payta to this port. This disaster occurred about thirty miles to the south of the Macabi Islands, and was caused, it is said, owing to the dense fog which prevented the light of either vessel being seen until it was too late. An inquiry has just been ordered by the naval department as to the facts of the case. The crew were saved, with the exception of the steward and cook, who were married men, and for whose widows a subscription was got up on board the steamer, which amounted to about £50. The names of the men lost are Joseph Morris Sichars and Henry Williams. The following is a list of the saved—

Griffith Thomas, captain.
O R Ellis, 1st mate.
John Morgan, 2nd do.
Charles Chester, seaman.
August Lawrence, do.
David Thomas, do.
Evan Morgan, do.
Antonio Leichelo, do.
Carl Rivos, do.
John Geraldi, do.
Francisco Evans, do.
John Hughes, do.
John Thomas, do.

We have not heard any further authenticated particulars, though we have sought them, and abstain from giving publicity to the various reports in circulation."

Special private advices from Antwerp give the following:—

"Antwerp, 16th Jan., 1873.

I had the pleasure of addressing you on the 9th inst. and now beg to inform you that the total sales in wool in our market since then barely reach 1200 bales R. P. and there is but little demand for old B. A. wool. Since a day or two there is some little inquiry for new clip Montevideo wool, of which about 500 bales were taken for France at rather easier prices. In the face of an accumulating stock, now reaching about 2300 b., holders generally are becoming willing sellers and readily meet the views of buyers. It was decided upon yesterday that our next public auctions shall open on the 4th February and it is likely that they will embrace about 20,000 to 25,000 b. Looking at the general position of the wool en trade, it would be highly satisfactory if we could maintain our present ground, but I fear the chances are that we may even see a decline of 5 to 10 centimes established, so as to bring down the value on a level with the prices accepted these last few days for about 600 bales washed B. A. wool.

"The demand for hides continues good at firm prices, which are likely to be fully maintained, so long as our supply remains moderate.

"Tallow is dull with sales this week of about 220 pipes and 30 hhds. beef on the spot at fl.24½. Mutton is obtainable at fl.24½ on the spot and fl.24½ to arrive."

SAVINGS BANK

BANK MAUA AND CO.

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current is now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following a noble example of their firm in Montevideo, will offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maná & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. Maua & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First--The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Guaranteed

Infallible for the Cure of Scab in Sheep.

After long and innumbrable trials, we have succeeded in preparing the above Sheep-dip, by the use of which we guarantee the thorough eradication of Scab in Sheep.

Besides cheapness and easy application, it has the great advantage over all other similar preparations of being

COMPLETELY SOLUBLE IN WATER,

a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere.

Ferruginous Gin.

ANALYSIS

BY

Professor Kyle.

The Iron exists in the form of a protoxide, one fluid ounce of the Gin containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place amongst chalybeate preparations, and be employed with advantage where the administration of a tonic alcoholic stimulant is indicated.

Post-office Department.

The Belgian General Post-office has advised this Department that the Postage on Letters received in that country, per Antwerp Steamer, leaving here on the 22d of every month, has been reduced, single letters being charged seventy centimes (fourteen cents more or less). Thus, the single letter rate on this Republic being five cents., the total postage will only amount to nineteen cents, 4½ m/c.

(Between Piedad and Rivadavia.)

I have recently returned from New York, having travelled extensively in Europe and the United States, examining the latest and most improved methods for successfully operating in Surgical and Mechanical Dentistry, in addition to which I have engaged the services of two learned and skilful Dentists from New York, with whose able assistance, and my own experience of 30 years' practice, I now offer to the Public of Buenos Ayres.

Gold Fillings, a Speciality; also, Silver, Bone, and other Fillings made in the most secure and durable manner.

Partial Sets of Teeth, from one Tooth to a full Set, of the latest and best material, satisfactorily executed and made to fit.

My Patients are aware of my ability to extract teeth quickly, and with little pain, but to timid persons, who desire an Anæsthetic, I keep on hand, and administer fresh daily, the Nitrous Oxide Protoxide of Nitrogen, or Laughing Gas, for the painless extraction of Teeth.

Dentrifice and Tinctures for Preserving and Cleaning the Teeth; also a fine assortment of Tooth-brushes. To be had at any time.

For the accommodation of Dentists, I have opened a Dental Depot, where all necessary materials can be procured. cj—75 1m f4

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vebetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of.

Abscesses, Boils, Eruptions
Scrofula or King's Evil,

& Dumb Ague.

As a means of building up the consiitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to normal functional operations. —cj— 46

They offer themselves for all classes of difficult operations in their profession, without any more recommendation than the credit they have obtained in the respectable society of Montevideo

Fill teeth with Silver, Platina, Os Artificial, and Hill's Stopping:

also with

PURE GOLD.

Dr. Webster having made a special study of this last beneficial metal, which conserves and keeps for many years a tooth which gets to be classified by many dentists as lost.

Complete sets of teeth, or partial ones, made on gold, silver, platinum, and vulcanite rubber plates.

The perfection of their artificial sets of teeth are guaranteed by the many persons of this city who have had the work done in Montevideo.

Drs. Webster and Prince consider it a duty to announce to the respectable public that they never have worked in this city before, as some persons have imagined; and beg that their new establishment may be visited, in which will be found all the latest improvements that the profession has obtained in North America.

City Sewage and Water Works

The Committee encharged with the Sewage and Water Works of the City of Buenos Ayres have resolved, as empowered by law of September 26, 1872, to call for tenders under the following conditions.

Art. 1. Sealed tenders will be received by the London Local Committee until the 15th day of May, or by the head board here up to 15th June, 1873.

Art. 2. All proposals must be accompanied by the signatures of good responsible guarantees.

Art. 3. The proposals to be drawn up in any of there five ways—

1stly. For all works, including materials and hand work.

2ndly. For all hand work (the materials being supplied).

3rdly. For all the necessary materials, specifying each separately.

4thly. For each section of the works, separately,

5thly. For the materials and works of each section.

Art. 4. Contractors can go in for one or more sections, or even the whole work, including materials.

Art. 5. The Committee will supply on application the plans and printed conditions, together with all necessary explanations.

Art. 6. The immediate commencement of the works being rendered necessary, contractors must be prepared to receive at cost price whatever may have been done.

Art. 7. The Committee reserves to itself the privilege of receiving proposals for the modifications on the plans accepted, or giving same to the contracting parties.
